## **King StarBoard® and King StarBoard® ST Transcript**

King Plastic Corporation pioneered the first marine-grade polymer sheet, King StarBoard®, which remains the dominant brand in the marine industry today. Since 1968, our innovations, combined with our customers' imaginations, have lead to the creation of entirely new categories of polymer sheet products.

King StarBoard® and King StarBoard® ST are the ultimate building materials for outdoor and wet environments.

From the original marine-grade polymer sheet, King StarBoard®

To luxurious outdoor kitchens and living areas made with King StarBoard® ST

To exceptionally clean and durable medical cabinets and case goods

The King StarBoard® family of products has evolved over decades to help you set your imagination free to design and build applications that make peoples lives better.

The environmentally stabilized sheets work like wood and last a lifetime. They will never rot, swell or delaminate, and they are available in a variety of designer colors.

Imagine what you can build with King StarBoard® and King StarBoard® ST.
